

# Get Off The Fence

Armored Saint

Get off the fence  
Free fall on one side  
To meet the end  
A waffle effects pride  
Get off the fence  
You typed out the email  
Now just push send  
And deal with decision made

It's consequence  
So handle it right or wrong  
Get off the fence  
And let go of the bong  
You've made your bed  
So sleep in it peacefully  
And get off the fence

Direct or indirectly your fault  
Straddling the wall you can't have it all no

Well get off the fence  
Or run the risk of being named  
Yellowish  
Fractured beat and tamed  
Get off the fence  
Flash a crooked smile  
And then ascend  
Mile after mile

Significance  
Don't live like a tumbleweed  
Get off the fence  
Just blowing in the breeze  
I'll make a bet  
You'll feel much more relieved  
So get of the fence

Direct or indirectly your number's called  
Preparation always will help to avoid pitfalls  
Get off the fence

In this kangaroo court  
You can't be wishy wash  
You'll never be taken serious  
I little bit morally rotten  
Keeps you from hitting the bottom  
The dearly departed won't make a fuss no

Get off the fence  
Oh the ghost of yesterday  
Get off the fence  
Enjoys stepping in your way  
Get off the fence  
Put your put your business in the street  
Get off the fence  
Ah take a bow at the meet and greet

Direct or indirectly you can  
Face the music like a confident medicine man  
In the end ain't different than now it began  
Of you're on the fence

Get off the fence
