

## Never Satisfied

Armored Saint

Where do we go from here  
There must be something me near  
Changing you, changing me forever  
Places change, faces change  
Life is so very strange  
Changing time, changing lies together

There's nowhere else to go  
This could be or last show  
Changing dreams, changing schemes - never  
We are never satisfied

Live is gone along with fun  
Now we're reaching for the gun  
Changing cash, changing fast - no more tether

We are never satisfied
