

Carry My Urn to Ukraine

Army of Lovers

Clash of the titans when rivers we cross
Death of an icon incredible loss
Under the banner we march in the rain
Like when you carry my urn to Ukraine

While the train is in motion
Embalm me in lotion
And toast magic potions
I drink and I'm dead

Raise the flag on my Russian soil
Kiss the ground on a mortal coil
Slowly progress through Belarus
Cannibals cook a Slavic mousse

Cosmonaut bred in Baykonur
Hail contessa, hail De La Cour
Phosphorate like a beast to bait
I cremate, I delegate

Clash of the titans when rivers we cross
Death of an icon incredible loss
Under the banner we march in the rain
Like when you carry my urn to Ukraine

Sacrificing a has been
The death of a virgin
A life in the margin
No water, no bread

Face yourself in a crystal ball
Chernobyl rise, Chernobyl fall
Slice the churches for onion rings
Art for trade and the art world swing

Drown the czar in a scent Cartier
Scrambled eggs by Fabergz
Phosphorate like a beast to bait
I cremate, I delegate

Clash of the titans when rivers we cross
Death of an icon incredible loss
Under the banner we march in the rain
Like when you carry my urn to Ukraine

While the train is in motion
Embalm me in lotion
And toast magic potions
I drink and I'm dead

Trapped in between on a bureau desk
Forward architect Stalinesque
Army Of Lovers on parade
Flash lingerie and then invade

Drown the czar in a scent Cartier
Scrambled eggs by Fabergz

Phosphorate like a beast to bait
We cremate, we delegate

Clash of the titans when rivers we cross
Death of an icon incredible loss
Under the banner we march in the rain
