

Black Sky

Arrows to Athens

Always knew a missing piece
Waiting in the dark
Like a quiet melody
But if I listened hard

I could hear the sound
Rising from the ground
Every moment until now
I was dying to change from a spark to a flame

I want fire, fire
It burns bright
I'm fighting to reach it
But the higher higher
That I fly I'm falling to pieces inside
Even when it's hot, even when it's hot
Never gonna quit, never gonna stop
Fire, fire
Tonight I'm lighting up the black sky

On the edge of giving up
Letting go tonight
But I have waited long enough
And when I close my eyes

I can hear the sound
Rising from the ground
I want to let it out
'Cause I'm starting to change from a spark to a flame

I want fire, fire
It burns bright
I'm fighting to reach it
But the higher higher
That I fly I'm falling to pieces inside
Even when it's hot, even when it's hot
Never gonna quit, never gonna stop
Fire, fire
Tonight I'm lighting up the black sky

Oh, can feel it burn, burn, burn
But I won't go back again
Oh, I can feel it burn, burn, burn
But I won't go back again

Fire, fire
It burns bright
I'm fighting to reach it
But the higher, higher
That I fly I'm falling to pieces

I want fire, fire
It burns bright
I'm fighting to reach it
But the higher, higher
That I fly I'm falling to pieces inside
Even when it's hot, even when it's hot

Never gonna quit, never gonna stop
Fire, fire
Tonight I'm lighting up the black sky
