

# Call Of The Wild

Artension

Don't need the man to tell me where I've been  
Never needed maps to find my way  
Give me the reason...When'd it all begin?  
We reached the limit in one day

I'll never tell you where we go  
I'll never show you things I know  
So many secrets in the game  
Are they all the same?

You know, it feels like home  
Call Of The Wild  
You see, I'm right at home  
Call Of The Wild

I left the city lights far behind me  
Packed up the gear to get away  
Didn't need a reason...I'd do it all again  
Don't try to stand there in my way

I'll never tell you where we go  
I'll never show you things I know  
So many secrets in the game  
Are they all the same?

You know, it feels like home  
Call Of The Wild  
You see, I'm right at home  
Call Of The Wild

I'll never tell you where we go  
I'll never show you things I know  
So many secrets in the game  
Are they all the same?

You know, it feels like home  
Call Of The Wild  
You see, I'm right at home  
Call Of The Wild
