

## Evolution in Reverse

Artension

All the roads lead into the light  
Blinding my eyes with shades of white

But it doesn't matter to me  
So far away  
And I never thought it could be  
Ending this way

Evolution in reverse, it's not in my mind  
Evolution in reverse, I told you, it's not in my mind

Forbidden secrets out of range  
Now in regression, men must change

Evolution in reverse, it's not in my mind  
Evolution in reverse

Turn of the century drawing near  
Making two thousand man - made years

Evolution in reverse, it's not in my mind  
Evolution in reverse
