

Into the Eye of the Storm

Artension

Set a course for disaster we're loaded out to sea
Through the thunder and lightning just you and me

We're gonna race the wind
We've got to keep runnin'
From mother nature hand
Storm clouds cornin'

It feels like we're sailin'
Into the eye of the storm
Feel the power of the wind
Into the eye of the storm

A wall of rain surrounds me I do not dare to fight
Whirlwind to the sky-nature's power and might

We're gonna race the wind
We've got to keep runnin'

From mother nature hand
I feel my fate cornin'

Lift me up to the sky into the eye of the storm
I meet my fate in a white blaze of light
In the eye of the storm

We're gonna race the wind
We've got to keep runnin'

From mother nature hand
I feel my fate cornin'
