

## Machine

## Artension

Another day is dawning and calling to me  
And right before my eyes I clearly see  
Can you hear my prayer? floating on the air

I've got you in my sights ooh yeah  
I'm much too young to die

Machine trained for killing  
Machine can't force the willing

Been far away for so long but I'm not lonely  
My dreams are in the smoke that's in the air  
Can you hear my plea? are you looking down on me?

I've got you in my sights ooh yeah  
I'm not afraid to die

Machine trained for killing  
Machine can't force the willing

Can you hear my prayer? floating on the air  
I've got you in my sights ooh yeah  
I'm much too young to die

Machine trained for killing  
Machine can't force the willing
