

## Smoke and Fire

Artension

Smoke signals burnin' deep inside o'me  
Burnin' white hot for all the world to see  
You know the power of love got a hold on heart  
and mind  
And all the other flames gotta leave 'em all behind  
Yeah leave 'em all behind come on and rescue me

Smoke and fire thats what you are Smoke and fire

I never knew a man could act the way I do  
Just short of arson, aw, I do it all for you  
You know the spark of love lights the fuse of soul  
and mind  
And all the other flames gotta leave 'em all behind  
Oh leave 'em all behind

Smoke signals burnin' deep inside o'me  
burnin' white hot for all the world to see  
You know the power of love got a hold on heart  
and mind  
And all the other flames gotta leave 'em all behind  
Yeah leave 'em all behind
