

# The Way

Artension

Deep in this heart of mine, hidden away  
New age dawning and questions turning into fears

Overtaught but never learning, upside down our world is turning  
Over my head

Give me the answer, show me the way  
Give me the answer, show me the way

Far from the city lights, I've felt the rain  
And with each moment, thoughts unbroken in my mind

Overtaught but never learning, upside down our world is turning  
Over my again

Give me the answer, show me the way  
Give me the answer, show me the way

Deep in this heart of mine, hidden away  
New age dawning and questions turning into fears

Overtaught but never learning, upside down our world is turning  
Over my head

Give me the answer, show me the way  
Give me the answer, show me the way
