

The Wind and the Rain

Artension

With walls around me it's getting hard to breath
Feels like they're closing in on me
So many miles I've travelled all around this earth
Or am I just walking in my sleep

I've got to get away
I've got to somehow, someway
Oh this city's haunting me

I hear the wind and the rain, they want ease my
pain
Save me from myself
Oh the wind and the rain tells me I'm insane
If I don't step back from the ledge
The wind and the rain

Far from the madness, the noise and the lights
I think I've had my fill of these
Sun does not shine on my face
Men like rats in a race
Will it just bring me to my knees

I've got to get away
I've got to somehow, someway
Oh this city's haunting me
