

World of Illusion

Artension

So many secrets trapped in time
Forever silent eternal crime
Why? did they die?

So many schemes
So many lies
So many dreams, buried alive

We want the truth - world illusion
Tell only lies - world of illusion
I've seen his face - so much confusion
It's our disgrace - world of illusion

We felt the presence - long ago

They've walked through the shadows of our souls

Why? didn't we try?

So many plans
So little time
So many scams
control our lives
