

# Still Awake

Arthemis

I cannot see, I cannot feel  
what's wrong on in my head?  
I feel cold  
I'm on my way to insanity  
Behind the door there is light and mistery  
the paranoia gives me pain,  
death is sitting next to me.

It was you, it was me  
but I can't see the end.  
Can't take a breath I suffocate  
no way no release  
There is no cure to take away  
the sense of mystery

The scream of pain drag me down down down  
but how I miss the peace I've lost  
and never found  
never found

I wake up in shadow  
it won't last forever  
I won't die,  
I'm still awake.  
Anger is screaming  
I won't stop believing  
here I am,  
I'm still awake

I see al blur no way to run,  
I'm down on my knees  
I gotta fight I will survive  
I can't let this be  
don't run away I'm on my way,  
I'm coming over you  
this evil place is too bad to be true  
to be true.  
Take me higher, I will survive

I wake up in shadow  
it won't last forever  
I won't die,  
I'm still awake.  
Anger is screaming  
I won't stop believing  
here I am,  
I'm still awake

I wake up in shadow  
it won't last forever  
I won't die,  
I'm still awake.  
Anger is screaming  
I won't stop believing  
here I am,  
I'm still awake
