

# Thunder Wrath

Arthemis

When I look into the fire  
I feel the thunder wrath inside my soul  
Still searching for an answer more and more

I'm walking in the shadows  
Don't wanna hide forever  
Found something to believe in  
I'll never have to give in

The roaring thunder screaming  
Electrifies my feelings  
The heart beat keeps on growin'  
And feelings start to join as one

Down inside my mind's eternal war  
I will go and feel the force When I look into the fire  
I feel the thunder wrath inside my soul  
Still searching for an answer more and more  
Let the call of the wild  
Rule the world tonight  
And raise your hand up to the sky

When you see over the mountains  
Fields of gold  
You won't believe your eyes  
Watch the storm dividing skies and hear the thunder roar

The lightning gives you power  
Still shockin' what is ours  
The burning eyes break out the darkest night  
And my feelings still join as one

Down inside my mind's eternal war  
I will go and feel the force

When I look into the fire  
I feel the thunder wrath inside my soul  
Still searching for an answer more and more  
Let the call of the wild  
Rule the world tonight  
And let the fire burn into your mind  
When I look into the fire  
I feel the thunder's calling in my soul  
Still searching for an answer more and more  
Let the call of the wild  
Rule the world tonight  
Burning eyes, burning eyes
