

In Your Mind

Artillery

I guess it all makes sense
There is every proof and evidence
That all you think is true
That all is clear between me and you

There is a need to be sure
You think there is a real good cure
To control under lock and key
To realize what makes . makes me, me

In your mind
Deep inside
In your mind
What do you find?
In your mind
Deep inside
In your mind

There is a hole and void
Dangers you dare not exploit
What makes you cry and hide
What's in the dark must not - come to light

In your mind
Deep inside
In your mind
What do you find?
In your mind
Deep inside
In your mind

In your life you'll find
In your heart you're blind
In your soul you know
In your mind you have to go

You can only see yourself
You'll never be anything else
Lies within the one you are
You'll always have an inner - inner war

In your mind
Deep inside
In your mind
What do you find?
In your mind
Deep inside
In your mind
