

The Face of Fear

Artillery

The world is gonna fall
Out time already up
We sucked and dried it out

Our hunger is so grand
Of poison fill my cup
I drink from the well

Under crimson skies
Our hopes and dreams they die
This reality - why can't we see?

We burn in misery
With parched and ashen face
With politics of greed

We leave a heritage
Of poverty and pain
We bathe in poison rain

Under crimson skies
Our hopes and dreams they die
This reality - why can't we see?

No heeding the signs
No wait for tomorrow
Read between the lines
The face of fear

Disease must be erased
The trials that we face
Miasma amber mist

They see the face of fear
It whispers in your ear
It all will end in tears

Under crimson skies
Our hopes and dreams they die
This reality - why can't we see?

No heeding the signs
No wait for tomorrow
Read between the lines
The face of fear

Solo: Michael

A monster in a dream
Our nightmare is really here
I see the face of fear

It rears its ugly head
Our future in a cask
The scary phantom mask

Under crimson skies
Our hopes and dreams they die
This reality - why can't we see?

No heeding the signs
No wait for tomorrow
Read between the lines

The face of fear, the face of fear
The face of fear, the face of fear
