

Through the Ages of Atrocity

Artillery

A little bit roughed up
A tiny bit broken down
A small crack spreading

Running on fumes of fear
Voices in your ears
Your soul is numb and jaded

For endless seasons
In eternal years
Those close to you

Humiliation
Goes on and on and on
Leaves you pretty gone

Through the ages of atrocity - now you shall see
Through the ages of atrocity - now you are next

Solo: Michael

Suppression of you
Forever chained
The power that may be

Time to face the facts
You know it's gonna last
Give it all you got

Through the ages of atrocity - now you shall see
Through the ages of atrocity - now you are next

Harmony solo: Morten

Solo: Michael

A hope that lies
Make friends with the ground

Gasoline breath
Ritual of death
Faded with a grace

Through the ages of atrocity - now you shall see
Through the ages of atrocity - now you are next
