

Ready To Roll

Artist vs. Poet

I'm making plans just to break them
And I'm taking drugs just to take them
We're making love to the weekend
And you'll wanna be high for this

We made it out to the west coast
And sold our souls to rock 'n' roll
So take us anywhere you wanna go
With just the change in our pockets
No one can stop us

Whatever city or town there's no shutting us down
Kept our feet on the ground for far too long
So tired of the same shit different day
A different day, everyday

We're gonna get high with the windows down
Fancy cars when we go out
Not one single thing to care about
Tell me, are you ready now?
Ready to roll
Roll like we do

You got your doubts, I can shake them
You got your worries, time to drink them
'Cause Third Eye Blind's on the station
And I'm thinking Motorcycle Driveby can tell us why

Whatever city or town there's no shutting us down
Kept our feet on the ground for far too long
So tired of the same shit different day
A different day, everyday

We're gonna get high with the windows down
Fancy cars when we go out
Not one single thing to care about
Tell me, are you ready now?
Ready to roll
Roll like we do

We're gonna get high with the windows down
Fancy cars when we go out
Not one single thing to care about
Baby are you ready now?

We're gonna get high
We're gonna get high with the windows down
Fancy cars when we go out
Not one single thing to care about
Tell me are you ready now
Ready to roll
Roll like we do
