

Undiscovered

Ashlee Simpson

Take it back, take it all back now
The things I gave, like the taste of my kiss on your lips,
I miss that now
I can't try any harder than I do
All the reasons I gave, excuses I made for you
I'm broken in two

All the things left undiscovered
Leave me empty and left to wonder
I need you
All the things left undiscovered
Leave me waiting and left to wonder
I need you
Yeah I need you

Don't walk away

Touch me now how I wanna feel
Something so real, please remind me
My love, and take me back
Cuz I'm so in love with what we were
I'm not breathing I'm suffocating without you
Do u feel it too?

All the things left undiscovered
Leave me waiting and left to wonder
I need you
All the things left undiscovered
Leave me empty and left to wonder
I need you
Yeah I need you

When I'm in the dark and all alone
Dreaming that you'll walk right through my door,
Its then I know my heart is whole
There's a million reasons why I cry
Hold my covers tight and close my eyes
Cuz I don't wanna be alone

All the things left undiscovered
Leave me waiting and left to wonder
I need you
All the things left undiscovered
Leave me empty and left to wonder
I need you, I need you

Cuz I can't fake and I can't hate
But it's my heart
Thats about to break
You're all I need
I'm on my knees
Watch me bleed
Would you listen please
I give in
I breathe out
I want you, theres no doubt
I freak out, I'm left out

Without you, I'm without
I'm crossed out
I'm kicked out
I cry out
I reach out
Don't walk away
Don't walk away
Don't walk away
Don't walk away
