

On to Something Good

Ashley Monroe

Wheels are gonna rust If they don't turn enough,
And so the story goes
Yeah, I've been one of those worn and faded by the rain
Days are gonna fly
Draw lines around your eyes
It'll make you bitter, it'll make you wise
it's coming either way

Lost and found, I'm better dancing when I don't look down
Hard times roll up but they don't hang around
I feel like I'm on to something good
I'm better moving on than going back
I'll ride this train till it runs out of track
I feel like I'm on to something, something, something

I can't tell you how or where I'm heading now
But, the winding of the road is steadying my soul
Feels like I'm coming home
Oh yeah
It's in the wind that's blowing, it's in the red wine
Life's got it's way of showing when it's the right time

Lost and found, I'm better dancing when I don't look down
Hard times roll up but they don't hang around
I feel like I'm on to something good
I'm better moving on than going back
I'll ride this train till it runs out of track
I feel like I'm on to something, something, something

Oooh something, something
Oooh something, something

Lost and found, I'm better dancing when I don't look down
Hard times roll up but they don't hang around
I feel like I'm on to something good
I'm better moving on than going back
Yeah, I'll ride this train till it runs out of track
I feel like I'm on to something, something, something

Oh I feel like I'm on
Oooh something, something
Feel like i'm onto something
Oooh something, something
