

# My Song

Ashley Roberts

Now the world be playing my song  
Playing my song  
Playing my song  
Now the world be playing my song  
Moving all night long

You said I was no good  
Had me feeling miss understood  
I was aiming for the sky  
But you told me I couldn't fly  
But look at me now since you've been gone  
I'm doing good, I'll moving on  
Baby I never felt this strong  
So baby for leaving me behind  
Hiding your tongue don't lose your mind  
Couldn't believe that I would try

Now the world be playing my song  
Playing my song  
Playing my song  
Now the world be playing my song  
Moving all night long  
Now the world be playing my song  
Playing my song  
Playing my song  
Now the world be playing my song  
Moving all night long

They put like a model chin  
I hope I got you feeling so damn sick  
You never thought I would come this far  
But here I am, another fighting star

But look at me now since you've been gone  
I'm doing good, I'll moving on  
Baby I never felt this strong  
So baby for leaving me behind  
Riding your tongue don't lose your mind  
Couldn't believe that I would try

Now the world be playing my song  
Playing my song  
Playing my song  
Now the world be playing my song  
Moving all night long  
Now the world be playing my song  
Playing my song  
Playing my song  
Now the world be playing my song  
Moving all night long

Now the world be playing my song  
Playing my song  
Playing my song  
Now the world be playing my song  
Moving all night long  
Now the world be playing my song

Playing my song  
Playing my song  
Now the world be playing my song  
Moving all night long

Remember all these games you played  
You don't know oh how good it taste  
To see the sad look on your face  
Run away it's a brand new day  
Those eyes are flashing in the sky  
I'm blind but still I see you cry  
Truth's out and now I'm fly and reach  
Chapter's done to this memory  
Now the world be playing my song  
Playing my song  
Playing my song  
Now the world be playing my song  
Moving all night long  
Now the world be playing my song  
Playing my song  
Playing my song  
Now the world be playing my song  
Moving all night long
