

White Flag

Ashlyne Huff

Yeahhhhhh

C'mon

Eh, eh, eh, yeahh

Baby when I close my eyes I see you
I feel you here even when I'm all alone
You crept inside of my mind, you broke through
You stole my heart
Yes you're Cupid's criminal

Left, right, turn around there you are
Up, down, yeah, turn around there you are
There you are, there you are
My heart can't get away

We go right, up, turn around there you are
Can't shake it, turn around there you are
There you are, there you are
There's just no escape

So put my white flag in the air
My hands up, I'm giving in
Everything you see be yours
I don't wanna fight it no more

Got my white flag up and I surrender
Everything you see be yours
I don't wanna fight it no more (no more, more, more)
I don't wanna fight it no more (no more, more, more)
Got my white flag in the air

I've been hiding from the truth this whole time
Picture perfect's hangin' right in front of me
Now there's no doubt, there's no doubt it's alright
Cause it's so obvious that we're so meant to be

Left, right, turn around, there you are
Up, down, yeah, turn around, there you are
There you are, there you are
My heart can't get away

We go right, up, turn around there you are
Can't shake it, turn around there you are
And there's just no escape

So put my white flag in the air
My hands up I'm giving in
Everything you see be yours
I don't wanna fight it no more

Got my white flag up and I surrender
Everything you see be yours
I don't wanna fight it no more (no more, more, more)
I don't wanna fight it no more (no more, more, more)
Got my white flag in the air (no more, more, more)
I don't wanna fight it no more (no more, more, more)
Got my white flag in the air

Put your flag up in the air
If you don't have to fight no more
We've won the war
Put your flag up in the air
Cause it's love and we can't ignore it no more (no more, more, more)

Ooooh
So put my white flag in the air
My hands up, I'm giving in
Everything you see be yours
I don't wanna fight it no more

Got my white flag up and I surrender
Everything you see be yours
And I don't wanna fight it no more (no more, more, more)
I don't wanna fight it no more (no more, more, more)

Got my white flag in the air (no more, more, more)
I don't wanna fight it no more (no more, more, more)

Got my white flag in the air
Left, right, turn around there you are
Up, down, turn around there you are, yeah
There you are, there you are
I surrender

Right, up, turn around there you are
Can't shake it, turn around there you are
There you are, there you are
Got my white flag in the air
