

## Midnight

Asia

They put away the DDT now  
But gave metal to the sea  
A hundred years can't wait  
A hundred years can't wait another day

The only eagle, only tree  
Within a desert that was green  
A hundred years can't wait  
A hundred years can't wait another day

Midnight  
Draws ever near  
Daylight  
Is fading so fast  
It's so close to midnight  
Midnight

The melting ice will fuel the sea  
By burning gold from ancient tree  
A hundred years can't wait  
A hundred years can't wait another day

This is progress, this is sin  
Injecting poison in her skin  
A hundred years can't wait  
A hundred years can't wait another day

Midnight  
Draws ever near  
Daylight  
Is fading so fast  
It's so close to midnight  
Midnight
