U Bring Me Down

Asia

Don't tell me what you are
Don't tell me what you're after
Don't tell me what you want
Don't tell me what you need
Aren't you just the one to always point the finger
I don't care for you 'cos you don't care for me!

U bring me down.......
U bring me down
You're giving me no hope
Sucking off our land
Blowing off the smoke
Virus in the veins
That run into the sea
Poisoning the world
With you're generosity

U bring me down
You're killing me with lies
You take away our ears
Won't take away my eyes
The red red sea will return unto the vein
Covering the world
Are you happy with your gain

I could breathe, I could fly
The day before you came
(Think you own my skin now)
Break the chains, free the slave
Turn the tides against you now

Talking to the sky
You promise evolution
Progression of the mind
By selling of the soul
The last will be the first
In the dust of revolution

Someone cares for me
But no one cares for you

Will I breathe? Will I see?
Far beneath the clearest stream
(To the deepest ocean)
Break the chains, free the slaves
Give back the blood, that you drain from this world now
