

See me, hear me  
But still you try to box me in  
You think you know my mind  
By the colour of my skin  
See me, hear me  
But still you try to box me in  
You think you know my mind  
By the colour of my skin  
ADF back with a lyrical death threat  
With you ignorant attitudes  
What the f\*\*k did you expect?  
We'll mash up your stereo  
With a typical body blow  
Asian distortion  
Better tread it with caution  
Better treat it with caution...  
Eyes permanently closed  
You tell me everything's alright  
Chemical escape  
You're desensitised  
Sitting cross-legged with your joss sticks and your flutes  
Just taking and faking what's easy:  
No respect for our roots.  
See me, hear me  
But still you try to box me in  
You think you know my mind  
By the colour of my skin  
See me, hear me  
But still you try to box me in  
You think you know my mind  
By the colour of my skin

With your ignorant attitudes  
What the \*\*\*\* did you expect?  
We'll mash up your stereo  
With a typical body blow  
Asian distortion  
Better tread it with caution  
Better treat it with caution...  
Many noises and voices  
And messages in the blender  
Yes I speak out to many  
'Cos it's a bigger agenda  
But preach to the converted is what you say we do  
Show them to me man  
I don't see them, do you?..  
Everybody talking man they're now talking about way it's the junglistic sound that is coming around  
And if you chossa dis sound  
And a fuse it a down  
From top to bottom create your own obsession  
Master Deeder- that is my name  
And I'm kicking all the way all the way for the fame  
We four brothers-one of a kind  
Like no other you will a find  
Minitan scientists  
Yes, that's what we are

No we're never gonna be laid back  
Too busy dodging your attack  
ADF here to kick your arse again  
We'll give you bass in your face  
And we're gonna offend  
Peace!  
See me, hear me  
But still you try to box me in  
You think you know my mind  
By the colour of my skin  
See me, hear me  
But still you try to box me in  
You think you know my mind  
By the colour of my skin
