

Flyover

Asian Dub Foundation

Flyover, flyover
Sing, flyover, flyover
Chant, flyover, flyover
Step on the gas, get down in the accelerator
Sing, flyover, flyover
Don't wanna get back and don't wanna get captured
Chant, flyover, flyover
Step on the gas, get down in the accelerator
Sing, flyover, flyover
Mr.Trance, get your products and get out of my way
There ain't enough hours in my day
The city's on fire in the pouring rain
Seem as life even faster than a runaway train
Hit the buzzer da da shi shi for computers ab da shi
The bloody turf want me to find a new chief
And geta behind the wheel-a-way, never goin' home
Speedin' and slidin' inside the transit zone
Flyover, flyover
Step on the gas, get down in the accelerator
Flyover, flyover
Don't wanna get back and don't wanna get captured
Flyover, flyover
Step on the gas, get down in the accelerator
Flyover, flyover
Don't wanna get back and don't wanna get captured
Speeding through the heebies about 20 percent
Watcha red between a guilty and a innocent?
Rubbing shoulders with a su-su-super class engines
Burning out the ura and salt cans and tank
Chokin' up a land of fire, smokin' up the air
Some days you'd rather be anywhere but here
Chokin' up land of fire, smokin' up the air
Some days you'd rather be anywhere but here
Sing, flyover, flyover
Step on the gas, get down in the accelerator
Flyover, flyover
Don't wanna get back and don't wanna get captured, flyover
Ooh, the city is blind but it will not slow down
The drive to destruction is the heaviest sound
The city is blind but it will not slow down
The drive to destruction is the heaviest sound
Is the heaviest sound, is the heaviest sound
Flyover, flyover
Is the heaviest sound
Flyover, flyover
Step on the gas, get down in the accelerator
Shift to the underworld and it's another story
As the cells surround you with positive energy
As the baseline ba da ba da be da be agree activity
I said you know this is a place to be
You know it's always been a place to be
You know it's always been a place to be
I said you know this is a place to be
I got dem, got dem, London city
Flyover, flyover
Step on the gas, get down in the accelerator
Flyover, flyover

Don't wanna get back and don't wanna get captured
Don't wanna be down in the station in the stroke of midnight
Nobody wanna go where there's plenty of light
Asking for direction when I'm tired of a way, you know there's never time Yo
u know there's never been a powers in a day
You know there's never been a powers in a day, in a day, in a day
The city is blind but it will not slow down
The drive to destruction is the heaviest sound
