### Asking Alexandria

I had a dream once  
All by myself with no one else  
I thought I'd died and gone to heaven  
Then I woke up  
And everybody wanted something  
Reaching out don't f\*cking touch me  
So I take pills to induce sleep  
But I always wake up

Please stay away from me  
You keep on talking with nothing to say  
I don't wanna hear about your life  
You make me wanna eat a bullet  
It's on my forehead  
Four letters, off  
And go forth and spread the word  
I don't wanna know you  
Please stay away from me  
'Cause I don't f\*cking like you

I had a dream once  
I didn't know it at the time  
The world was perfect in that moment  
Then I woke up  
I was surrounded by these strangers  
Standing close and staring in  
So I drink liquor to escape it  
But I always wake up

Please stay away from me

You keep on talking with nothing to say  
I don't wanna hear about your life  
You make me wanna eat a bullet, bullet  
It's on my forehead  
Four letters, off  
And go forth and spread the word  
I don't wanna know you  
Please stay away from me  
'Cause I don't f\*cking like you

From my heart  
I hope you know this song is about you  
From my heart  
I hope you know this song is about you  
From my heart  
I hope you know this song is about you

Please stay away from me  
You keep on talking with nothing to say  
I don't wanna hear about your life  
It's on my forehead  
Four letters, off  
And go forth and spread the word  
I don't wanna know you  
Please stay away from me  
Please stay away from me

'Cause I don't f\*cking like you
