

## The Last Mistake

Assemblage 23

I haven't seen you in so long  
And I think that's wrong  
And I think that's wrong

This problem needs to be addressed  
It's really for the best  
It's really for the best

We'll be a family again  
No one to steal you from my grasp  
They'll bury you right next to me  
We'll be together at long last

If I can't have you, then nobody can  
I hope you understand  
I hope you understand

I have your interests in my heart  
Never to be apart  
Never to be apart

We'll be a family again  
No one to steal you from my grasp  
They'll bury you right next to me  
We'll be together at long last

The last mistake you ever made  
Was trusting me  
Was trusting me

Now close your eyes, my precious child  
And I will set you free  
I will set you free.

We'll be a family again  
No one to steal you from my grasp  
They'll bury you right next to me  
We'll be together at long last
