

# Time To Rock

Astral Doors

[Johansson / Nordlund / Lindstedt]  
It's another boring day; I wanted to run  
And people in my way  
Oh, what have I done?  
Here we are, time to stay Raw  
Burning up but what do we know?  
Live to learn; wait another minute  
By the will to die  
Their haunted houses were made of strangers  
He'll break the sun and light  
The marker's cleared and locked  
It's time to rock  
It's time to rock  
It's time to rock  
When your cell is down and locked  
It's time to rock  
There is a lonely man  
He's taking control  
He might be doing wrong  
It's eating his soul  
Came out; riding the law  
They're forced to say: we'll open the door  
In between; lost inside a riddle  
And we may have to die  
He live upon the edge of danger  
They'll hold their weapons down  
But I will never stop  
It's time to rock  
It's time to rock  
It's time to rock  
Yes, when your world is down and locked  
It's time to rock  
[Solo: Nordlund]  
Their haunted houses were made of strangers  
He'll break the sun and light  
The maker's cleared and locked  
It's time to rock  
It's time to rock  
It's time to rock  
Yes when your mind is cleared and locked  
It's time to rock  
It's time to rock  
It's time to rock  
Wes when your world is down and locked  
It's time to rock  
It's time to rock  
It's time to rock  
All around the world  
And I will never ever stop  
And I ain't never gonna drop  
It's time to rock
