First Elegy

G Death starts like a dream Em So infinite, beautiful, and sad D You're there in the chapel С And the sun is fading to black G Its brilliance surrounds us Em With outstretched arms D So blinded by the sadness С You're feelings sliding so hard Am С You grasp towards fluorescence G Em F Still slipping yet holding so tight Am С Let's bask in the shadows G And welcome the night Em Welcome the night D Am С We survived, we are here G So welcome the night
