We can walk in straight lines
We can't see quite right
We've lost the plot
And we can't get it back
So lets lose ourselves
Lets lose ourselves

Can you spot the English here?

Let's pick a fight on whomever we like Cause we're never wrong Nobody likes us We don't care So let's lose ourselves Let's lose ourselves

Can you spot the English here?

We can see it for real
But it doesn't make sense
We're the outsiders
We can see all this speech
Come staggering out
And we can climbs its way
To the top of that cloud

I'm away with the fairies now

This familiar environment Gets my lungs confused I breath in every particle That you drive thru That you drive thru

Well can you spot the English here?

We can see it for real
But it doesn't make sense
We're the outsiders
We can see all this speech
Come staggering out
And it can its way to the top
Of that cloud

Oh I'm away with the fairies now [x4]
