

# Everybody Gotta Go

## Atlanta Rhythm Section

Everybody's gotta go sometime  
But I'm so far from ready  
Ain't gonna let it mess my mind  
I'm gonna keep on rockin' steady

Don't you know  
Everybody's gotta go sometime

You can drink  
You can smoke  
You can do your dope  
Take a pill to ease your tension  
You can dose and dose until you overdose  
It's called suicide prevention

But don't you know  
Everybody's gotta go  
Everybody's gotta go sometime  
But I'm so far from ready  
Ain't gonna let it mess my mind  
I'm gonna keep on rockin' steady

Don't you know  
Lord don't you know  
Don't you know  
We all gotta go sometime

Take monkeys and rabbits and little white rats  
Shoot 'em full of this and that  
There's cancer in your food cancer in the air  
Cancer in your cigarettes  
Take vitamin C, B-12 and E,  
For your eyes teeth skin and bones  
But when the good Lord calls you can forget it all  
Don't you know you're good as gone

Don't you know  
Lord don't you know  
Don't you know  
We all gotta go sometime  
You can drink you can smoke you can do your dope  
Take a pill to ease your tension  
You can dose and dose until you overdose  
It's called suicide prevention

But don't you know  
Everybody's gotta go  
Everybody's gotta go sometime  
But I'm so far from ready  
Ain't gonna let it mess my mind  
I'm gonna keep on rockin' steady

Everybody know everybody gotta go sometime  
That's means me and you baby  
As long as we're goin' to heaven I don't mind
