

# I Hate The Blues / Let's Go Get Stoned

Atlanta Rhythm Section

I hate the blues  
I hate the blues  
Play me something I can cloud 9 to  
'Cause I hate the blues

Crank it up  
And give it to me funky  
Leave them blues alone  
Have me in mood for something optimistic  
We've been down too long

Have the songs  
We all need them  
We've been down too long  
Happy, happy songs  
You can't beat them  
Make somebody want to sing along  
(Sing along)

I hate the blues  
I hate the blues  
Play me something I can cloud 9 to  
I'm sick and tired of the blues

I've tried rain songs  
And pain songs  
And blow out of your brain songs  
And songs about how to lose  
I hate broken heart songs  
And torned apart songs  
And put that off the chart songs  
I'll just stay in the nude

I hate the blues  
Yes, I hate the blues  
So come on boys  
And play a good time song  
Hey give me something we can cloud 9 to  
Cloudin' makes you want to sing along  
I hate the blues
