

What You Gonna Do About It?

Atlanta Rhythm Section

I got rocks in my head
But I got wings on my feet
I say go and you say stay
And I'm caught in between
Now the choice is up to me

I am hung up in a dream
And I'm bound to see it through
You are wasting your time
Trying to tell me what to do
Now the choice is up to you

What you gonna do about it?
I have told you where I stand
I want your love, but I can live without it
So what you gonna do about it?

What you gonna do about it?
Oh, I'm a man

I have told you where I stand
I want your love, but I can live without it
So what you gonna do about it?

I have a dream
And I'm bound to see it through
You are wasting your time
Trying to tell me what to do
Now the choice is up to you

What you gonna do about it?
Oh, I'm a man
I have told you where I stand
I want your love, but I can live without it
So what you gonna do about it?

What you gonna do about it?
[repeat till fade]
