

Armed and Dangerous

Atlantic Starr

Hit it!

You might think love's such an easy game
You'll never get hooked
But you're playing with fire
When you wrote your name in my book

Don't you believe what you see
I'm not like the other guys
I'm here to warn you, baby
There's something you don't realize

Hey, baby, I'm armed and dangerous
You better watch your step
Armed and dangerous
You're dealing with something else
Will you take the risk, baby
'Cause I'm armed and dangerous

My finger's dead on the trigger
I've got your heart in my sights
So how come you keep on walking
So close to the darn red light
Hey, yeah

Armed and dangerous
You better watch your step, girl
Armed and dangerous
You're dealing with someone else
Will you take the risk, baby
'Cause I'm armed and dangerous
(Baby, I'm armed and dangerous)
I'm armed and dangerous

When love hits you right between the eyes
You'll learn that love was in disguise
Surprised?

Armed and dangerous
Are you sure you wanna take me home
Armed and dangerous
Could be dealing in the danger zone
Will you take the risk, yeah
Baby, 'cause I'm armed and dangerous

Oh, yeah

Hey, baby, I'm armed and dangerous
Ooh, you better watch your step, yeah
Armed and dangerous
'Cause you're dealing with someone else, yeah
Will you take the risk, ooh, baby
'Cause I'm armed and dangerous...
