

Oh what a wonderful world this could be  
If we all opened up our eyes to see  
That love is what we all need right now  
Then we all could come together some way somehow

My door is open wide, no matter who you are  
You can come get warm inside  
Cuz I need you, just as you need me  
And there's a way to show it, oh love is the key

It may take some time, but we can start by being kind  
To our neighbors in each and every land  
And hope that in return they would be concerned  
About the life of each and every man

Oh on my honor, I see every man as my brother  
And together we can find the hope that's buried deep within  
If we put away our differences and let's all be friends

Life can be beautiful  
When someone gives their love to you  
For no special reason, and nothin' in return  
If we all tried to love like that soon the whole world will learn

It may take some time, but we can start by being kind  
To our neighbors in each and every land  
And hope that in return they would be concerned  
About the life of each and every man

Oh on my honor, I see every man as my brother  
And together we can find the hope that's buried deep within  
If we put away our differences and let's all be friends

Oh on my honor, I see every man as my brother  
And together we can find the hope that's buried deep within  
If we put away our differences and let's all be friends  
Put away our differences and let's all be friends
