

We're Movin' Up

Atlantic Starr

Whoo!
Oh-whoa...
Whoa, oh!
Oh, we're movin' up, whoa...

Ooh, move out the way
'Cause we're coming through
Never looking behind, uh-huh
Gearing up is what we're gonna do
'Cause this is our time
Opportunity is calling
Its voice so very strong and clear
It's telling us that we don't have
Too far to climb
For the top of the mountain is near

But let us never forget that hard work
Pays off in the end (oh-whoa)
If you're patient, your time will come
And then the taste of success begins, yeah

We're taking it forward
No going backwards
Gonna make a statement
And bring to life our plan
We're gonna get tough
And go for the gusto
We're movin' up
We're takin' a stand

Whoo!

Ooh, it's been a long time comin'
From punching the clock everyday
Never thought we'd ever hit the lotto
But we knew soon some light
Would shine our way
Oh, take this message, each and every man
When the light is green
Press it to the metal and go
But just as quick as you go up
You can fall straight down
So don't forget
From whom all blessings flow

Hey, and never forget that hard work
Pays off in the end
And if you're patient, your time will come
And then the taste of success begins, yeah

We're taking it forward
No going backwards
Gonna make a statement
And bring to life our plan
We're gonna get tough
And go for the gusto
We're movin' up

We're takin' a stand, oh

Whoo!

Take it on up!

Take it on up!

Whoo!

Oh, we're taking it forward

No going backwards

Gonna make a statement

And bring to life our plan

We're gonna get tough

And go for the gusto

We're movin' up

We're takin' a stand, oh

We're taking it forward

No going backwards

Gonna make a statement

And bring to life our plan

We're gonna get tough

And go for the gusto

We're movin' up

We're takin' a stand...
