

You Hit the Spot

Atlantic Starr

You hit the spot that turned me on
Boy, you turned me on, full power
My wheels are turnin' fast and strong
And there's no way to turn me off, oh

What have you done to my body
Where have you taken my mind
I feel so different, I'm a brand new girl
Um, boy, your love is "on time"
You have created a monster in me
I want everything you've got and more
Come on, let's do it again, wild and crazy
Then let's see what else you have in store, baby

You hit the spot that turned me on
Boy, you turned me on, full power
My wheels are turnin' fast and strong
And there's no way to turn me off, oh

Son of a gun, you got me
You worked real smooth
I had no choice but to give into your magic touch, boy
There was only one way to choose
Oh, I'm yours forever
For you my passion is strong as steel
'Cause you loved me like the end of the world was coming
You tapped on the sexy side of me for real, yeah

You hit the spot that turned me on
Boy, you turned me on, full power
My wheels are turnin' fast and strong
And there's no way to turn me off, h

Something that you have is magic
'Cause you really cast a spell on me
And now I'm all ecstatic
From the way that you love me, boy
Look at me, can't you see

You hit the spot that turned me on
Boy, you turned me on, full power
(You really turned me on, yeah)
My wheels are turnin' fast and strong
And there's no way to turn me off, oh

You hit the spot that turned me on
You really turned me on, full power
(You hit the spot)
My wheels are turnin' fast and strong
And there's no way to turn me off, oh
(You really hit the spot, oh)

You hit the spot that turned me on
You really turned me on
You really blew my mind in full power
My wheels are turnin' fast and strong
(So strong)

And there's no way to turn me off, oh

You hit the spot that turned me on
(Hey, hey)

You really turned me on, full power
(You really turned on, yes, you do)
My wheels are turnin' fast and strong
And there's no way to turn me off, oh

You hit the spot that turned me on
Boy, you turned me on, full power
My wheels are turnin' fast and strong
(You hit the spot, baby, you really did)
And there's no way to turn me off, oh

You hit the spot that turned me on
You really turned me on, ooh, full power
