Atozzio

She bust the windows out my car
Bleach out all my clothes
Took my luie and and gucci and she burned it on the stove
She even left a note
Wanted me to know
That she had enough of sharing me with other hoes
I was playing russian roulette with a loaded gun
The pain kicking in and it weights a ton
Now I sitting here confused
Don't what to do
Yea she lost her mind
But she got a good excuse

Cause I know if I slip or act up real bad this time
I know she ain't comng back this time
And I ha-hate it
Didn't reconize the best thing that I had
And I ended up losing my baby
These are the lessons that I've learned
When you tell one lie
You gotta tell another one to cover up
These are the lessons that I've learned
When she's good to you all she wants from you is to be the man you promise t
o
These are the lessons that I've learned
When your bed get cold and she feel alone
Wishing she was there to make your house a home
These are the lessons that I've learned
These are the lessons that I've learned

She close all our joint accounts
Lawyers told me now
Karma always she she can take my house
Like I took a vow
Damn I'm stressing now
Cause truthfully this girl
I can't do without
And I just realize what I've done
Sure thing my heart is gone
I lost my 80 percent missing with a 20 chick
Now I gotta deal with the consequence

Cause I know if I slip or act up real bad this time
I know she ain't comng back this time
And I ha-hate it
Didn't reconize the best thing that I had
