Attak

Verse 1

In your dreams you see your future  
See the way you've got to live  
You find a way out but there's no escape  
You see your life is just red tape

Verse 2

In the night you wake up screaming  
Can't you see its no good dreaming  
Reality, that's the way to live  
You can't have what they won't give
