

# Manipulate

Attila

Fuck it I'm let it out I never thought I would  
But then you pushed me to the edge and now I've got something to prove  
Every ounce of sanity that I thought I had left in me  
Is nothing but a memory that's all faded away

Welcome to the never ending cycle of manipulation  
Every day it never ends you never win I'm so complacent  
Step inside my head and take a look and see how you can fuck it up  
And I will laugh and fire back because I hate you  
Taking Giving Pulling I'm fucking done now  
I am fucking insane you'll never understand me  
Take a shot at me  
It will come right back in a worse degree

I wanna make you feel what I feel  
I wanna make you feel used  
And when you call my fucking name  
No one will be there for you

Manipulation to the worst extent  
I can play this game too  
Get the fuck up

Fuck it I'm let it out I never thought I would  
But then you pushed me to the edge and now I've got something to prove  
Every ounce of sanity that I thought I had left in me  
Is nothing but a memory that's all faded away

Every day I think I'm goin' forward but I'm really goin' back  
Like a vicious cycle sitting waiting for the next attack  
When I look into your eyes I see a ghost of someone  
That I used to love and I am broken on the inside

Taking Giving Pulling I'm fucking done now  
I am fucking insane you'll never understand me  
Take a shot at me  
I hope you like what you see

I wanna make you feel what I feel  
I wanna make you feel used  
And when you call my fucking name  
No one will be there for you

Please forget my fucking name  
This will never be the same

I can't stand to fucking see you  
Everything you say means nothing  
You are just a pawn inside my game that I will always win

Sever all the ties and fill my soul with all your lies  
You're just a pawn inside my game  
My own delusional demise

I know my place  
Soulless  
To the grave

I know my place  
Soulless  
To the grave
