### Audio Push

Yeah, right of way, girl you got the right of way  
Let me know, I'll be headin' to you right away  
Right of way, girl you got the right of way  
Let me know, I'll be headin' to you right away  
Right away  
Right away  
Right away  
Let me know, I'll be headin' to you right away

Yeah, headin' to you right away, I'm swervin'  
Pedal to the metal like a surgeon  
In my own lane, we don't do mergin'  
Think I look good online? You should see in person  
She sing my songs, travel far from home  
Stay today from rags, now I'm on a throne, yeah  
Really had to overcome them obstacles  
The doors we kicked, the locks we broke  
The ends, the means, we laugh for show  
We went where they say not to go  
Ay, you got the right of way, we post, about to hide away  
You wanna slide away, my wrist look like a tidal wave  
Between your legs, that's my hidin' place  
I'll do it again with you, if I was to die today, don't try to play

Yeah, right of way, girl you got the right of way  
Let me know, I'll be headin' to you right away  
Right of way, girl you got the right of way  
Let me know, I'll be headin' to you right away  
Right away  
Right away  
Right away  
Let me know, I'll be headin' to you right away

You know why, woke up feelin' blessed  
I don't condone, don't promote, and don't smoke stressed  
That's why I don't get upset, and you don't get impressed  
Soon as she text me, "Where you at?" I started gettin' dressed  
You just Facetime, yeah I don't waste time  
In fifteen minutes I'm gonna be behind that waistline  
You know just how to do it, you know that body move me  
You had me pencilled in, it's all part of your plan, I knew it  
I don't like basic business, you don't like basic bitches  
We got a lot in common, that's why we get straight to business  
I eat baby, winnin', drop from that lady, I get it  
Then back to this paper baby, but text and I'll make a way  
You got the right of way

Yeah, right of way, girl you got the right of way  
Let me know, I'll be headin' to you right away  
Right of way, girl you got the right of way  
Let me know, I'll be headin' to you right away  
Right away  
Right away  
Right away  
Let me know, I'll be headin' to you right away
