

Animal

Audrey Horne

I can hear you crying out, echoing in the cold night
Running from the dying light, fading in the night

Show me all your battle scars
Show me your warpaint
Hell is just a waiting room, no one's getting out of here alive

You're like an animal
Fighting for survival
You're like an animal
Dying to stay alive

Standing on the burning ground, feel the heat underneath you
Waiting for the curtain call, long since overdue

Show me all your battle scars
Show me your warpaint
Hell is just a waiting room, no one's getting out of here alive

You're like an animal
Fighting for survival
You're like an animal
Dying to stay alive

In times like these, it's hard to tell the helping hand
From the clenching fist
In times like these, you better pray your rope is not on fire

Show me all your battle scars
Show me your warpaint
Hell is just a waiting room, no one's getting out of here alive

You're like an animal
Fighting for survival
You're like an animal
Dying to stay alive

You're like an animal
