

Blackhearted Visions

Audrey Horne

We've got to save this last ignition
To detonate our blackhearted visions

This aggression comes as salvation
This burst into every conversation
Slow down!

Unleash a united frustration
You can't stop a divine intervention
Slow down!

We drop like a bomb
Detonation!
On like a storm
No hesitation!

Kill me, kill me, kill me, kill me, kill me
My name is aggravation
Drop it down, drop it down, drop it down
Drop it down in their front yard

We are the center of the storm
Just kill it all
We are the center of the storm

This aggression comes as salvation
This burst into every conversation
Slow down!

Unleash a united frustration
You can't stop a divine intervention
Slow down!

We drop like a bomb
Detonation!
On like a storm
No hesitation!

Kill me, kill me, kill me, kill me, kill me
My name is aggravation
Drop it down, drop it down, drop it down
Drop it down in their front yard

We've got to save this last ignition
To detonate our blackhearted visions
We've got to save this last ignition
To detonate our blackhearted visions
