

## Blaze of Ashes

Audrey Horne

"Hang on, I'll be back by Monday", you said  
It's been days now  
Still not a sign from you  
So I wait here in the dark while sharpening knives  
Counting hours and crows to pass the time

Waiting as the days are turning to years  
I've been hanging out for so long  
Out in these desert hills  
And I sit here  
I'm so tired of needing a ride  
I've been wasting years now  
And I hope you're feeling proud

So, down you go in a blaze of ashes  
And all I know is that you have been lying through your teeth  
There's always someone there who can take your place  
All you are is just a little bit too easy  
Can you go in a blaze of dirt

"Hang on, I'll be back by Monday", you said  
It's been years now  
Still not a sign from you  
I've got miles left to go now  
And I'm not in the mood for this walk  
So I'm counting hours and crows 'til I get home

Down you go in a blaze of ashes  
And all I know is that you have been lying through your teeth  
There's always someone there who can take your place  
All you are is just a little bit too easy  
Can you go in a blaze of dirt
