

Wolf In My Heart

Audrey Horne

What's that sound?
It's coming out of the void.
It howls through my veins,
And leaves me weary and old.
Dazed and confused
I got into this world,
Broken and shattered I left,
I'm out on my own.

Round and around and around we go,
Same lines, different show.

Honey there's a wolf in my heart.
So welcome in, the room's on fire.
Honey there's a wolf in my heart,
I'm overthrown by the flames inside
Coming...5..4..3..2..1

Bury their bones
And kill the light by the door
The wolf in my heart,
Is coming back for more

Round and around and around we go,
same lines, different show.

Honey there's a wolf in my heart.
So welcome in, the room's on fire.
Honey there's a wolf in my heart,
I'm overthrown again.

It howls in my veins,
It crawls beneath my skin,
It breathes in my face,
Tells me to let him in

Dazed and confused
I got into this world,
Broken and shattered I left,
Out of the trenches
And into the void,
Follow me now as we go

Honey there's a wolf in my heart.
So welcome in, the room's on fire.
Honey there's a wolf in my heart,
I'm overthrown by the flames inside
Coming...5..4..3..2..1
