

# Friends

Aura Dione

Free, free to be myself,  
Free to need some time  
Free to need some help  
So I'm reaching baby, out  
When I'm lonely in the crowd  
When the silence gets too loud  
I'll be crashing on some couch

And even if I never forget you baby  
Tonight I'm gonna let your memory baby  
Go, always sad I know

But at least I got my friends  
Share a rain coat in the wind  
They got my back until the end  
If I'll never fall in love again  
Well at least I got my friends  
Like a life boat in the dark  
Saving me from the sharks  
Even though I got a broken heart  
At least I got my friends, got my friends, got my  
friends, got my friends  
Well at least I got my friends

I don't wanna think, I just wanna feel  
I just wanna dream, yeah  
So pour another round  
And throw it back until it's down  
Let's get lost until we're found, again and again

And even if I never forget you baby  
Tonight I'm gonna let your memory baby  
Go, always said I know

But at least I got my friends  
Share a rain coat in the wind  
(Always got my back) Got my back until the end  
If I'll never fall in love again  
At least I got my friends  
Like a light bulb in the dark  
Saving me from the sharks  
Even though I got a broken heart  
At least I got my friends, got my friends, got my  
friends, got my friends

And when the world is upside down, yeah  
The sky is full of clouds yeah  
They always come around, it feels like home, like home  
And I never have to try, I can be myself and I  
Am never alone, I never feel alone

And even if I never forget you baby  
Tonight I'm gonna let your memory baby  
Go, always said I know

But at least I got my friends  
Share a rain coat in the wind

They got my back until the end  
If I'll never fall in love again  
At least I got my friends  
Like a light bulb in the dark  
Saving me from the sharks  
Even though I got a broken heart  
At least I got my friends, got my friends, got my  
friends, got my friends  
At least I got my friends, got my friends, got my  
friends, got my friends  
Well at least I got my friends.
