

You Got Wings

Aura Dione

Can you feel it high?
Don't it make you feel so good?

Impossible
They said this love will never last
But here we are
Here we are
Fell from the stars
With frozen hearts
We both got scars
But here we are
Here we are

Days and the days and the days go by
Maybe it's the perfect waste of time
And I'm caught in the middle
Caught in the middle

You lift my feet off the ground
You put my head in the sky
Oh, I let it turn around
See you got wings and so have I

Unbreakable
Was vulnerable
Out of control
And here we are
And here we are
It's crazy love
It takes our love
So tell me you are brave enough
Are you brave enough

You lift my feet off the ground
You put my head in the sky
Oh, I let it turn around
See you got wings and so have I

I got my feet off the ground
Got my back to the sun
Got my head in the sky

You lift my feet off the ground
You put my head in the sky
When I feel alone I turn around
See you got wings and so have I
