You're the only one that makes me come undone Like electricity flowin' over me

Don't stop what you're doin' You got me fiyin' Don't stop what you're doin' Ain't no denyin'...

You give me a buzz
Like no one before
Got me bouncin' off the ceilin'
Flat on the floor
You give me a buzz
Like I've never known
Baby, just one touch from you
And my fuse is blown
You give me a buzz

When I look in your eyes girl you get me high You make my body shake with a love earthquake

Don't stop what you're doin' I feet the shiver Don't stop what you're doin' Come on deliver...

You give me a buzz
Like no one before
Got me bouncin' off the ceilin'
Flat on the floor
You give me a buzz
Like I've never known
Baby, just one touch from you
And my fuse is blown
You give me a buzz

It don't matter what I'm doin'
Just as long as it's with you
Girl you make my heart beat faster
When you do the thing you do

You give me a buzz Like no one before Got me bouncin' off the ceilin' Flat on the floor You give me a buzz Like I've never known Baby, just one touch from you And my fuse is blown You give me a buzz Like no one before Got me bouncin' off the ceilin' Flat on the floor You give me a buzz Like I've never known Baby, just one touch from you And my fuse is blown

You give me a buzz You give me a buzz You give me a buzz You give me a buzz
