

She's the Reason

Autograph

She's the Reason, She's the Reason
She's the Reason, She's the Reason

When I want a rocket ride
She takes me all the way
When I'm feelin' torn inside
She knows just what to say

She got the way to fill my need
The hunger only she can feed
Nobody's ever taken me
To the fire - pure desire...

She's the Reason - I can't deny
She's the Reason - Don't question why
She's the Reason - Deep in my soul
She's the Reason - For the only love I know

Give her everything I got
And then a little more
She can take me on the spot
Where I never been before

I felt the passion at first sight
She takes me through the longest night
Nobody ever felt so right
So excitin' - ain't no fightin'...

She's the Reason - I can't deny
She's the Reason - Don't question why
She's the Reason - Deep in my soul
She's the Reason - For the only love I know

When I need a place to go
Some shelter from the winds that blow
A little tea and sympathy
She's always there for me, I know

She's the Reason, She's the Reason
She's the Reason, She's the Reason
She's the Reason - I can't deny
She's the Reason - Don't question why
She's the Reason - Deep in my soul
She's the Reason - For the only love I know

She's the Reason, She's the Reason
She's the Reason, She's the Reason

She's the Reason - I can't deny
She's the Reason - Don't question why
She's the Reason - Deep in my soul
She's the Reason - For the only love I know

She's the Reason - I can't deny
She's the Reason - Don't question why
She's the Reason - Deep in my soul
She's the Reason - For the only love I know

She's the Reason, She's the Reason
She's the Reason, She's the Reason
